

PRODUCT CATALOGUE

We don't sell light. We help you create experiences through light

Since 1994, ON THE SPOT has had one simple mission: to make your store environment and your products look as stunning as possible. That's what keeps us moving forward. Keeps us experimenting. Constructing. Illuminating. And that's what makes us proud, when we enter a retail store somewhere around the world: to see our light make the difference. To see our light push the sales.

That's what you get when working with us. We don't sell light. We help you create experiences through light.

Experiences, that sell your product.

LED PROFILES

Pendant & Surface Mount

FLEXIBLE NEON LED

Flexible neon strip lighting is a versatile LED solution that mimics traditional neon but is bendable, energy-efficient, and easy to install, making it perfect for creative lighting designs.

ACOUSTICS

Silent Mood of Light

Lighting and acoustics are equally important in creating a comfortable environment where people can concentrate and perform at their best. Practical and visually appealing solutions that combine both elements are ideal for closed and open-plan offices, meeting spaces, classrooms and lecture halls, providing a way to reduce common background noise.

BOARD ROUND

Made from acoustically effective material, the BIDO Pendant must be configured separately

BOARD SQUARE

Made from acoustically effective material, the LOG 50 Pendant must be configured separately

SPOTTUNE
